## SEEKING A LEAD CARPENTRY POSITION

### Introduction to Summit Construction

Summit Construction Company is a commercial construction manager with more than 25 years' experience in the industry. We specialize in general contracting, design-build, CM and CMR based projects. We are looking to expand our core team and add a lead carpenter to our project staff.

### Lead Carpentry Position:

The Lead Carpentry position would lead our carpentry division in all aspects of installation and coordination, along with supervise and direct other carpenters.

### Key Skills Required:

- Carpenter with minimum (5) years' experience in the commercial construction industry
- Read and understand construction plans and specifications
- Perform material takeoffs
- Self-sufficient with minimum supervision required
- Drive to various job locations using own transportation
- Use own tools for various tasks with Summit supplementing as needed
- Competent and understanding of safety and OSHA rules
- OSHA 10 or 30 card preferred
- Wood and metal framing installation
- Wood trim, casing, door installation
- Cabinets and countertop installation
- Metal frame installation
- Commercial door hardware installation
- Drywall hanging and finishing
- Acoustic ceiling installation
- Toilet accessory, marker & tack board installations

**Compensation & Benefits:**

- Competitive hourly wage rate
- Healthcare including medical, dental and vision
- 401k
- Vacation days
- Personal days
